

SIG Reports (12): Risk Management Processes and Methods in Design

What is the name of the person completing this form?

Jeffrey W. Herrmann

What are the name (s) of SIG leaders?

Jeffrey W. Herrmann
Josef Oehmen

What are the name (s) of SIG steering committee?

N/A

What are the SIG goals and objectives?

Product design and development requires managing many types of uncertainty. Product design and development itself can even be seen as a risk management process that reduces uncertainty in a structured manner from a first product idea to a product in the market. The Risk Management Processes and Methods in Design SIG (Risk SIG) studies design processes through the lens of risk management.

Who are the key members of the SIG to be mentioned? (beyond SIG Leaders and Steering Committee)

N/A

What activities has the SIG been engaged in?

1. Conference	[08 / 17]
2. Workshop	[14 / 17]
3. Summer school	[04 / 17]
4. Young members	[03 / 17]
5. Planning meeting	[11 / 17]
6. Web meeting	[12 / 17]
7. Webcast/web seminar	[09 / 17]

The answers above indicate how many of the 17 SIGs (inc. Africa Design) participated in each activity. However, the answers do not specify what activities the SIG in this report participated in specifically.

Please describe your recent activities and successes:

None in 2021.

Has the SIG made any publications in the last year?

No.

Does the SIG have a financial/business report?

No.

What are the SIGs plans for the next year?

Undetermined.

Is there any further support the DS can provide for your SIG?

No.

Any other information you would like to share?

No.

Have you recently updated your SIG website?

No.

Did you know you can apply for funding using the SIG fund request form available on the DS Website?

Okay.

Do you have a photo of a recent members event? (Paste URL link)

No.
